

BOOKMOTION PRESENTS

The Agora Almanac

A showcase of programmatic book design,
built with React components.

Contents

01	Typography & Layout	3
02	The Grid System	4
03	Color & Theme	5
04	Data Visualization	6
05	Code & Components	7

CHAPTER 01

Typography & Layout

Good typography is invisible. When type is well-set, the reader focuses on content, not the mechanics of reading. Every decision matters.

Bookmotion gives you precise control over every typographic detail through React components and CSS-in-JS styling.

CHAPTER 02

The Grid System

Flexible Grids

CSS Grid lets you create any layout. Span columns, nest grids, and build complex compositions with precision.

CHAPTER 03

Color & Theme

The theme system provides 15 built-in color palettes. Each theme includes colors, fonts, and spacing presets that cascade through every component.

CHAPTER 05

Code & Components

```
import { Book, Page }
from '@bookmotion/core';

export const MyBook = () => (
  <Book config={config}>
    <Page layout="full-bleed">
      { /* Your content */ }
    </Page>
  </Book>
);
```
